

Aggregated Purchase of Electricity, Supply Only - Statewide
06-X-38569
March 17, 2006
Addendum #2

Interval Data

This addendum provides a web address to obtain interval data related to the Aggregated Purchase of Electricity accounts. This information was created by the State's consultant for this procurement, Gabel Associates. The interval data file is posted on the Gabel Associates web site. It is posted as a zip file of about 18.6 MB. To obtain this file:

1. Go to the following link: <http://www.gabelassociates.com/sonj06-x-38569.htm>

(Copy the URL address and paste it into the address line of the web browser and click "GO".)
2. Once the page is open, just **RIGHT CLICK** on the link that says '**06-X-38569 Interval Files - zip file**'. It should ask for a location on your computer to save the file. Pick a convenient location that you can find later and click **SAVE**.
3. The file will take a little while to download depending on the speed of your internet service. We averaged a minute or two for our tests.

The files are organized inside the zip folder by utility. The PSEG accounts have a separate spreadsheet listing the account description and the SIP code which is in the individual file name. PSEG is the only utility to use a code instead of the account number so this will help the bidders to identify the account data.

The Stage 1 Question and Answer cut-off date remains scheduled for March 22, 2006.
The Stage 2 Qualification Submission remains scheduled for April 7, 2006 at 4:00 PM
The Stage 3 Bid Opening Date remains scheduled for April 18, 2006 at 2:00 PM
